Is Your School IT-Ready? A Practical Checklist for Educators and Administrators

In today's education landscape, reliable and secure technology is essential. This simple and practical checklist will help you evaluate your school's IT setup and identify areas for improvement. Let's ensure your school is equipped to support students, teachers, and administrators with the tools they need to succeed.

The School IT Readiness Checklist

1. Network Reliability

- ☐ Does your school provide **reliable, high-speed internet** that meets the demands of online learning?
 - ☐ Is your **Wi-Fi coverage strong** and consistent throughout classrooms, libraries, and offices?
 - ☐ Can your network handle increased demand from activities like **video conferencing, online testing, and multimedia streaming**?
-

2. Classroom Technology

- ☐ Are your classrooms equipped with **interactive tools** like smartboards, projectors, or touchscreens?
 - ☐ Do teachers have access to **modern, reliable devices** to enhance their lesson delivery?
 - ☐ Are you leveraging **Learning Management Systems (LMS)** to streamline assignments, communication, and grading?
-

3. Cybersecurity

- ☐ Does your school have **firewalls, antivirus software, and other safeguards** to protect against cyber threats?
 - ☐ Is sensitive student and staff data securely stored and encrypted?
 - ☐ Do staff and students receive training on **cybersecurity best practices** to reduce risks?
-

4. Device Management

- ☐ Are all student and staff devices regularly **updated and maintained** for optimal performance?
 - ☐ Do you have a system in place to efficiently manage and track all devices?
 - ☐ Is there a reliable process for **fast troubleshooting and repairs**?
-

5. IT Support and Maintenance

- ☐ Does your school have access to **24/7 IT support** for unexpected issues?
 - ☐ Are regular IT audits conducted to ensure **systems are performing at their best**?
 - ☐ Is your team prepared to handle **tech emergencies** quickly and effectively?
-

6. Future Readiness

- ☐ Are you using **cloud-based solutions** to improve flexibility and collaboration?
 - ☐ Is your IT infrastructure prepared to support future growth, such as increased enrollment?
 - ☐ Are you maximizing opportunities for funding through programs like **E-Rate**?
-
